

REMARKS

After entry of this Amendment, claims 1 - 34 are pending in the application. Claims 3, 6, 8, 11 - 14, 16 - 19, 21 - 24, 25, and 28 - 35 have been amended. Claim 36 has been cancelled without prejudice.

An abstract has been added on a separate page as required by 37 C.F.R. § 1.72(b). The enclosed abstract is similar to the abstract on the cover sheet of the published International Application PCT/GB2003/001192 except that the reference and figure numbers have been removed.

The specification has been amended to incorporate the subtitles to conform with U. S. practice. A Substitute Specification is enclosed which incorporates the Amendment to the Specification and Abstract. No new matter has been added.

It is submitted that this Amendment has antecedent basis in the application as originally filed, including the specification, claims and drawings, and that this Amendment does not add any new subject matter to the application. Consideration of the application as amended is requested. It is submitted that this Amendment places the application in suitable condition for allowance; notice of which is requested.

Respectfully submitted,

YOUNG & BASILE, P.C.
